

Collection No. 60

K.H.L. Key

Tomingley - Dubbo -
Narrowne area

11-14/10/54.

11/10/54 4099. Tomingley. 108. *Sideroxylon*,
Cirphula pyrrhocnemis (n), *Moraba* sp. (n)
dealbata, *Cas. stricta*, *Call. calcarata*, *C. glauca*
with dense shrubs (spec.) to 5ft. & blue
grass-like on coarse granitic soil.

Apotopio sp. *Pyrenostictus* *aristatus*.

Cirphula pyrrhocnemis, *Goniaca* sp.,
121. Essentially same community.
Moraba sp.

Dealbata, *C. calcarata*, *C. glauca*,
Call. calcarata, ^{tall} *Cas. stricta*, narrow-phyllode
wattle on higher levels, occ. *Sideroxylon*
on lower. Dense shrub layer of same
species as 108, but lower & thinner
in places, at least partly as result
of burning, where *Aristida* present.

M. cultrata \Rightarrow mainly confined to the
latter areas. *Acacia* *guthrieana*.

Apotopio sp., *Asplenium* sp. (n)
126. *Sideroxylon*, *C. calcarata*,
some blackleaf, occ. ~~*Call. calcarata*~~ *C. stricta*,
with a shrub layer of varying
density of a *Cassinia* (?) to 4ft. & occ.
lower species of low density. Much

litter, occ. ferns. Anstracris gutt.
Cirphula (N). 131. Junction with
Dubbo-Tarranmore road.

14/10. ~~744~~ 4248. Tarranmore. 262. Dealbata,
Macrotona sp., Apotropeia, Urtica, Cirphula
C. calcareata & occ. C. glauca ~~Leath~~ on
pyrochloenoides, Azidotha, Gomara, Heterostemonis,
sandy rise leading down to Sedesoxylon.

Patchy growth, sometimes dense,
of shrub noted at 108, ~~other~~ to 4ft.
other shrubs, mainly smaller, less
frequent, occ. Cassinia sp., scattered
lushy Acacia to 5ft., considerable ^{very} ~~h~~

Aristida. Anstracris gutt. 263. E.
^{Genus nov. 5(?) (m)}
microcarpa, C. glauca, bullock, Myoporum
sp. to 15ft, buddah, with numerous
Rochia microphylla & Bassia Birchia
on gentle shony rise with sparse
Stipa & Danthonia. 271. Junction with
Dubbo-Towningley road. 272. Dubbo.
